# 1 Cosine Theta of Negative Muon

Data within bounds:

$\langle \text{Observable} \rangle = 0.338 \pm 0.0053$ $[n_{\text{entries}} = 10000]$

All data:

$\langle \text{Observable} \rangle = 0.338 \pm 0.0053$ $[n_{\text{entries}} = 10000]$

2 Cosine Theta of Positive Muon

Data within bounds:
$\langle\text{Observable}\rangle = -0.338 \pm 0.0053 \quad [n_{\text{entries}} = 10000]$

All data:
$\langle\text{Observable}\rangle = -0.338 \pm 0.0053 \quad [n_{\text{entries}} = 10000]$
